Notes on Options in Trinity Term

The options available in TT are: Philosophy and Economics of the Environment, Labour Economics and Industrial Relations. There will be a small number of places for British Economic History, mainly for HE students. Students may request tuition in other options, but availability is not guaranteed.

- Any student who wishes to take Philosophy and Economics of the Environment must do so in Trinity Term

Others who may want to take options in TT are:

- E&M students taking 3 economics options, and PPE students choosing Labour as a politics option plus 2 economics options; however it is possible in each of these cases to do all three in the third year
- Visiting Students
